

Yunseo Choi

Seoul, Korea | dbstjys@yonsei.ac.kr | blog.naver.com/yafavvboba

EDUCATION

Yonsei University | Seoul, Korea Mar 2023 – Present

B.S. in Computer Science and B.E. in Quantitative Risk Management

- GPA: 4.15/4.3
- Coursework: Deep Neural Networks, Computer Vision, Fundamental Economic Analysis

Waseda University | Tokyo, Japan Mar 2025 – Aug 2025

B.A. in International Liberal Studies

- GPA: 4.3/4.3
- Coursework: Regression Analysis, Introductory Econometrics, Intermediate Data Science

RESEARCH INTERESTS

My research goal is to develop computer vision frameworks that can advance psychological research and affective computing by enabling automated recognition of human nonverbal cues. In particular, I am interested in:

- Automated recognition of facial expressions
- Body language analysis for behavioral studies
- Computer vision applications in affective computing and psychology

EXPERIENCE

Yonsei Computer Club, Yonsei University | Seoul, Korea Aug 2023 – Present

- Designed the UI of a social networking application for the SKYST Hackathon.
- Participated in database and deep learning study groups.

Prompt Engineer, [Outlier](#) | Oakland, California (Remote) Dec 2024 – Mar 2025

- Created coding prompts to improve the response quality of AI models.
- Reviewed prompts by other engineers to make sure that AI models get solid prompts.

Work-Study Student, Yonsei University | Seoul, Korea Sep 2024 – Dec 2024

- Provided academic assistance to a visually impaired student in Object-Oriented Programming (OOP) lectures.
- Transcribed and organized lecture content into an accessible format to support learning.

Volunteer, [Yongin Special City Animal Shelter](#) | Yongin, Korea Jul 2024 – Aug 2024

- Walked shelter dogs to improve their well-being and happiness.
- Cleaned the shelter facilities to maintain a sanitary environment.

Yonsei Student Advisory Council, Yonsei University | Seoul, Korea Mar 2023 – Dec 2023

- Coordinated a slogan contest aimed at enhancing student engagement and school spirit during the Yon-Ko Games.
- Facilitated a campus-wide language exchange program at Songdo, fostering international interaction and cross-cultural understanding.

Little Eagle Intern, [Deltoid](#) | Seoul, Korea Jan 2023 – Mar 2023

- Completed an internship at a medical metaverse startup, supported by Yonsei University's Higher Education Innovation ([HEI](#)) program.
- Designed the UI of a medical metaverse application to provide a space where customers can easily

communicate with doctors.

PROJECTS

Big Data Analysis Wind Power Generation Prediction Competition (Finalist) Aug 2025 – Present

- Developed an LSTM time series model to estimate wind farm generation amounts for three different wind farms

Data Station Academy Data Analysis Project Feb 2025 - Mar 2025

- Analyzed IT outsourcing company data using Python and proposed solutions to maintain and expand their customer base

HONORS & AWARDS

Honor Roll for Spring 2024, Yonsei University | Seoul, Korea Aug 2024

- Achieved academic excellence and placed on the university honor roll

Honor Roll for Spring 2023, Yonsei University | Seoul, Korea Aug 2023

- Recognized for outstanding academic performance in the Spring 2023 semester

Pennsylvania Statistics Poster Competition (1st Place), Saint Francis University | Pennsylvania, America May 2022

- Awarded First Place for the poster titled "[Parent Free-Health Free?](#)"
- Analyzed differences in health habits between dormitory and commuting students; observed significant effects

SCHOLARSHIPS

Underwood Truth Scholarship – KRW 1.7M Feb 2025

- Recognized for sustained academic excellence and leadership at Underwood International College

Suwon City Scholarship Foundation – KRW 4.0M Jul 2024

- Competitive municipal scholarship recognizing excellence and potential among local students

Underwood Truth Scholarship – KRW 1.5M Feb 2024

- Awarded for embodying academic integrity and values of Underwood International College

Korean Bang Jeong-Hwan Foundation Scholarship – KRW 2.3M Jan 2024

- Continued recognition for consistent academic achievement

Korean Bang Jeong-Hwan Foundation Scholarship – KRW 2.3M Jul 2023

- Merit-based award for academic excellence and community engagement

SKILLS

Computer Languages: Python, Java, R

Languages: Korean (native), English (TOEFL: 109, SAT: 1550)

Hobbies: [Blog Writing](#), Music
